

Work Experience

Associate Product Manager | Sprinklr, Gurugram

June 2025 - Present

AI-Powered Media Plan to Campaign Generation

- Driving POC for an **AI-powered Media Plan ingestion engine** that converts external media plans (Excel/CSV) into omni-channel campaign structures across **8+ social channels**, targeting enterprise advertisers.
- Coordinating cross-functional execution with ML, backend, and design teams; projected to eliminate manual campaign setup for **80%+ of enterprise ad creation workflows**.

AI & Governance Automation

- Launched **Automated Governance Checklist** — led end-to-end discovery via market research, competitive analysis, and **10+ customer calls** to validate **product-market fit**.
- Architected governance workflows spanning **60+ ad parameters across 8 social channels**, integrating brand taxonomy, compliance rules, and platform-specific ad policies.
- Drove **25% reduction in campaign creation time** and prevented budget overruns for **20+ enterprise partners** by automating manual governance tasks end-to-end.
- Deployed **5+ AI models** into publishing workflows, enforcing brand safety and ad-policy compliance at scale across all media assets.
- Spearheaded GTM execution — delivered **20+ customer demos**, scaled beta to **50+ enterprise accounts**, and built enablement collateral driving product adoption.

AI Knowledge Retrieval & RAG System in Copilot

- Identified automation opportunity by analysing support trends — surfaced that knowledge queries comprised **~12% of all cases** — and built a product roadmap for conversational AI resolution.
- Owned end-to-end development of an **AI-based RAG FAQ Bot** in Sprinklr Copilots, enabling contextual self-service answers inside Ads Reporting and Ads Manager.
- Accelerated self-service adoption by implementing analytics, user feedback loops, and continuous model tuning — reducing time-to-resolution for support queries.

Senior Product Analyst | Sprinklr, Gurugram

March 2024 - June 2025

Advertising Channel API Integrations Owner

- Owned end-to-end integrations for Meta & TikTok, collectively managing **~70% of total platform ad spend**.
- Developed **channel strategy roadmap** through in-depth market analysis, creating a unified directional view guiding future integrations.
- Shipped **30+ features per quarter** across **8+ channels**, consistently improving platform functionality and advertiser experience.

Product Strategy and Stakeholder Management

- Conducted **competitive analysis across 8+ ad-tech platforms**, synthesising insights to directly influence prioritisation, positioning, and investment decisions.
- Managed **100+ item backlog**, planned sprints, and coordinated with engineering, design, and GTM teams to ship key features on time and at quality.

Product Analyst | Sprinklr, Gurugram

Feb 2022 - March 2024

Usability and UX Improvement

- Optimised user journeys by mapping **15+ touchpoints** across customer workflows, identifying friction areas impacting platform stickiness and retention.
- Reduced workflow error rate by **30% within six months** through systematic improvements across **500+ error messages**, cutting support ticket volume.
